

# The COVID-19 Vaccine and Communities of Color

## Information Session and Q&A

## COME ONE, COME ALL!

The Health, Safety, and Worklife Directorate; Base National Capital Region; and the Civil Rights Directorate invite the entire Coast Guard workforce to learn more about the COVID-19 vaccine. Hesitancy exists among some communities of color in the United States due to historical instances of medical experimentation performed without informed consent. Hesitancy in some communities is also due to lack of access to information about how the COVID-19 vaccines were developed and tested, and what they may expect from a vaccine. Please join this discussion to be able to learn and share.

**Dr. Jaspal Ahluwalia**

CDR, Chief of Occupational Medicine  
US Public Health Service  
USCG

**Dr. Swati Singh**

LCDR, Chief Medical Informatics Officer  
US Public Health Service  
USCG

**Friday, April 2, 2021**

**12:00-13:00 EDT**
